

EU20i

- Inverter technology delivers super stable clean power with a pure sine wave form - essential for powering sensitive electronics and computers.
 - Superb efficiency with EcoThrottle, only running as fast as the load demands, improving fuel consumption and extending engine life.
 - Super quiet operation with noise reducing casing and acoustic panelling.
 - Stylish and ergonomic design. Lightweight and compact, easy to carry, transport and store.
 - Parallel operation - Optional cable allows two of the same units to be linked together to provide 3600W.
 - DC Output up to 12A to charge batteries (optional cable required).
 - Dual sockets to power or recharge two products simultaneously.
-
- Max output 2000W.
 - Rated output 1600W.
 - Noise level @ 7m 52dB(a).
 - Run time at variable load 4 to 10 hours.
 - Weight 21 kg.
 - Dimensions: L: 510, W: 290, H: 425
