

## Honda EX5500

---

Widely used for more demanding applications the EX range features robust generators for applications that require constant reliable power. Used widely at outdoor events, office back up and by race teams this range features acoustic panelling to provide silent operation. With precision output achieved through a voltage regulator users can be confident when running sensitive computer or electrical equipment that no damage will occur through power surges. All EX models feature remote control to allow distant operation and wheels and lifting hooks for movement.

The EX5500 runs on unleaded fuel at 5000 watts output for 5.5 hours before requiring a re-fill of the 16.5 litre fuel tank.

Max HP	13
.	
Sound Level (DB)	64
.	
Output (kw): Rated	5
Max	5.5
.	
Output Voltage (V)	115/230
.	
Continuous Operating Hours Without Refuelling at Rated Load	5.5
.	
Dimensions (mm)	L: 965, W: 585, H: 645
.	
Dry Weight (kg)	168
.	
FuelType	Petrol
