

WB30

Standard Pump (3" diameter)

-  3 inch
-  1000 litres per minute
-  8m
-  26kg

Our most powerful pump in the range. Superb for handling large volumes of water, in any fresh water situation. Capable of pumping 1000 litres a minute the WB30 will pump up to 138, 000 litres on a single tank-full of fuel. The pump is housed within a frame to provide a stable surface to operate from and to make transportation easier.
